

Manu Kumar

Full-Stack Developer | MERN | React Native | Python | FastAPI | Laravel

Kolkata, India | mk1209122@gmail.com | 9708780500 | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer with 4+ years of experience building scalable web and mobile applications. Strong experience across frontend, backend, database, and API development using React.js, Next.js, React Native, Node.js, Express.js, Python, FastAPI, Laravel, MongoDB, PostgreSQL, and SQL. Experienced in REST APIs, authentication, third-party integrations, database-driven applications, and performance optimization.

TECHNICAL SKILLS

Frontend	React.js, Next.js, React Native, JavaScript (ES6+), TypeScript, Tailwind CSS
Backend	Node.js, Express.js, Python, FastAPI, Laravel, REST APIs, JWT Authentication, Rate Limiting
Database	MongoDB, PostgreSQL, MySQL, SQL, Database Design, Query Optimization
Tools	Git, GitHub, Postman, AWS, PM2

PROFESSIONAL EXPERIENCE

Brainium Information Technology — MERN Stack Developer

Feb 2024 – Present

- Developed scalable full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Built reusable frontend components and worked on scalable application architecture.
- Designed and developed RESTful APIs for application modules and third-party integrations.
- Implemented authentication, authorization, and secure API workflows.
- Optimized database queries and backend processes, reducing response time by approximately 30%.
- Worked across frontend, backend, and database layers to deliver production-ready features.

iGLOBAL IMPACT ITES PVT. LTD — Software Developer

Mar 2023 – Jan 2024

- Developed dynamic applications using React.js, Next.js, and TypeScript.
- Developed and integrated backend APIs for frontend applications.
- Implemented JWT authentication and API rate limiting.
- Worked with databases and backend services for application functionality.
- Improved application performance and resolved critical production issues.

Wap Institute — Software Developer

Feb 2021 – Jan 2023

- Developed web applications using React.js and JavaScript.
- Maintained and enhanced full-stack company applications.
- Developed real-time communication features using Socket programming.
- Worked on frontend and backend integration for business applications.

PROJECTS

Yacht Booking System — MERN Stack

- Built a booking platform with dynamic pricing and availability logic.
- Developed REST APIs for booking and user management.
- Worked across frontend, backend, and database components.

lamPurr — Dating Application

- Developed a scalable dating platform with profile, interaction, authentication, and matchmaking features.
- Built responsive frontend interfaces and scalable backend APIs.

AI Developer Assistant — Next.js, Node.js, OpenAI

- Built an AI tool to explain and debug code snippets.
- Integrated AI APIs for real-time suggestions and developed the supporting backend.

EDUCATION

BCA — Veer Kuwar Singh University

ADSE (Advanced Diploma in Software Engineering) — Wap Institute
